EDUCATION

The University of Texas at Austin

Bachelor of Science in Computer Science

Austin, TX

2021

EXPERIENCE

General Motors

Software Engineer

Austin, TX

06/2023 – Present

- Developed and maintained Python-based applications for data processing and analysis within the manufacturing and robotics divisions.
- Collaborated with cross-functional teams to design and implement new software features, resulting in a 15% improvement in data processing efficiency.
- Participated in code reviews and contributed to the continuous improvement of software development practices.

Q2

Junior Python Developer

Austin, TX

08/2021 – 05/2023

- Assisted in the development and testing of Python-based financial technology solutions.
- Wrote and maintained unit tests to ensure code quality and reliability.
- Gained experience with Agile development methodologies and version control systems like Git.

Arm

Software Engineering Intern

Austin, TX

06/2020 – 08/2020

- Contributed to a team focused on developing and scripting with Python and C.
- Gained hands-on experience with Linux environments and source control systems.
- Assisted in the development of internal tools to support engineering workflows.

PROJECTS

Automated Data Pipeline

- Developed an automated data pipeline using Python, Pandas, and SQL to collect and process data from various APIs.
- Reduced manual data handling time by 90% through efficient data transformation and structuring.

E-commerce Price Tracker

- Created a web scraping tool using Python, BeautifulSoup, and Scrapy to monitor product prices on e-commerce sites.
- Implemented email notifications for price drops below user-defined thresholds.

ACHIEVEMENTS

- GM Spot Award (2024):** Received a spot recognition award for identifying and resolving a critical bug in a data processing pipeline, preventing potential data loss and saving an estimated 20 hours of manual correction per month.
- Q2 "Circle of Awesomeness" Award (2022):** Recognized for outstanding performance and teamwork as a junior developer, contributing to the successful on-time launch of a new mobile banking feature.
- First Place, HackTX (2021):** Led a team of four to win first place at the annual University of Texas at Austin hackathon by developing a novel FinTech application for micro-investing.
- University Honors:** Graduated with honors from the College of Natural Sciences at The University of Texas at Austin.

CERTIFICATIONS

- **PCEP – Certified Entry-Level Python Programmer:** Python Institute
- **PCAP – Certified Associate in Python Programming:** Python Institute

ADDITIONAL SKILLS

- | | |
|--|--|
| • Data Visualization (Matplotlib, Seaborn) | • RESTful API Development |
| • Statistical Analysis | • CI/CD Pipelines |
| • A/B Testing | • Linux/Unix |
| • Experiment Design | • Shell Scripting |
| • Data Mining | • Database Management |
| • Web Scraping (Beautiful Soup, Scrapy) | • Languages: English (Native), Spanish (Professional) |
